Holiday & area The Lycian Way, one of Europe's most stunning long-distance trails, stretches 500 km along Turkey's Mediterranean coast from **Fethiye** to **Antalya**. This holiday offers an introduction for both novice and experienced walkers, combining scenic beauty, cultural heritage, and relaxation. Over three rewarding walks, we'll explore flower-filled meadows, pine forests, abandoned villages, and dramatic coastal cliffs.

The first walk begins in Kirme, following Mount Baba's slopes with spectacular views of the Blue Lagoon and Belcekız Beach. The second takes us through the cobbled streets of historic Kayakoy and shady pine forests to sweeping sea views. The final walk leads to Butterfly Valley, with panoramic cliff views over golden beaches and turquoise waters before descending to Kabak Bay.

A reasonable level of fitness, sturdy boots and walking poles are essential. Between walks, relax by the pool, enjoy a Turkish bath, or visit the local market. This adventure perfectly balances walking, discovery and relaxation.

Hotel & room The hotel is a little gem with a big fan club and the family has been welcoming our guests for years. With only 19 rooms, the hotel is **exclusive** to us so it feels like a private villa holiday!

All the rooms are ensuite, modern and provide a comfortable accommodation with a double bed as standard. Our package includes a Turkish buffet breakfast each morning, and four evening meals each week in the hotel's own restaurant.
